

Veerayatan Institute of Pharmacy

Since its inception in Kutch, Veerayatan has been committed to providing opportunities of growth to the local people so that they can become self-sufficient and effectively respond to any challenges posed in the future. Seeing education as the tool to achieve this and focusing on young potential to build the future of the region, Veerayatan has embarked on the journey of training young adults in technical education.

Veerayatan Institute of Pharmacy, established in 2005, is the first technical degree college of Kutch offering undergraduate, postgraduate and PhD programmes. From the very beginning, the college has been achieving remarkable results in all

the years and has made a name for itself in the Gujarat Technological University (GTU). And given the vast growth of Pharmaceutical industries in and around Kutch, the graduating students find a strong potential for placements and contribute to the economic growth of the area.

Bachelor of Business Administration (BBA) and Bachelor of Computer Applications (BCA)

Veerayatan has conceptualized the idea of starting job-oriented professional courses in Kutch to give a boost to the overall development of the youth and for their economic growth as well. BBA and BCA courses (affiliated to the University of Kutch) are very handy for local students as they highlight the practical aspects of computer applications and business administration. After graduating, students are eligible for immediate employment and many of them are placed by local firms. This is a great source of pride to their families, because often it is the first time a family member has achieved a qualification in higher education.

Arham Veerayatan Institute of Engineering, Technology and Research

Despite the large pool of young human resource in the region, a majority of the rural youth have less opportunities to pursue higher education and therefore their talent might not sometimes be fully utilized for the development of their family and the nation.

- In order to bring opportunities of professional education and holistic development to the rural youth, Veerayatan has developed a world-class institute of engineering and research with 5,00,000 square feet of construction

post-graduate and diploma courses in Information Technology, Electronics and Communication, Civil, Mechanical, Chemical, Electrical and Computer Engineering is imparted by highly experienced faculty at an affordable cost to the students

- Quality education for graduate,

- Institute of Engineering, a sprawling 50-acre campus, hosts the best facilities for its students. An air-conditioned library with ample seating area and thousands of resourceful papers, books and journals ensure that the students have access to a world-class education. Fully equipped labs with the latest machines and tools provide an opportunity to the students to apply their learning from classes

- A state-of-the-art Sports Complex built to international standards hosts rigorous on-the-field training for student athletes, bringing laurels to the institute at the state and district level tournaments

- Where older generations in the region might not know how to read, the students at the college have dared to dream big. Veerayatan has not only helped them live this dream but also make a mark in their fields with exceptionally good results.
